

DIPENTENE

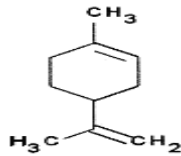

INTRODUCTION:

Dipentene is a basket of terpene hydrocarbons.

APPLICATION:

Dipentene is used in F&F, manufacture of Tackifier Resins, Substitute for D-Limonene, Release Agent, Solvent for Paints

PRODUCT CHARACTERISTICS:

Sr. No.	Characteristic	Specifications
1	Description	Pale Yellow Clear Liquid
2	Chemical Name	Dipentene
3	Structural Formula	
4	Molecular Formula	C ₁₀ H ₁₆
5	Molecular Weight.	136.24 g/mol
6	Specific Gravity at 30°C	0.8400 – 0.8600
7	Refractive Index at 25°C	1.4600 – 1.4800
8	Residue On Evaporation	Max. 2.0 %
9	Grease Spot Test	Complies
10	Flash Point (Closed Cup)	40°C – 55°C
11	Copper Corrosion Test	Negative
12	Distillation Range	155°C – 190°C
13	Heavy Metal as Lead	Max. 2.0 ppm

SHELF LIFE:

1 Year

STORAGE:

MS Drums

PACKING:

20 KL Isotank or 200 Ltr MS Drums
